

# Inspire Tomorrow's Tech Leaders Today!

*Engage your employees in creating safe and supportive learning environments for students traditionally underrepresented in technology.*

## Educate

K-12 students with hands-on, career-connected computer science and technology learning experiences.

## Excite

participants with cutting-edge tech education experiences in 3D printing, web design, digital animation, coding, and more.

## Empower

the next generation of computer science professionals with the mindset and knowledge to persist and succeed in the pursuit of a technology education and/or career.

# Volunteer Opportunities for any Schedule!

1

## STUDENT SUPPORT

Volunteer online or in-person in our Student WEB CORPS program. Serve as a Simulated Client as students learn workforce skills.

2

## SPECIAL PROJECTS

Share your skills with our administration team on special projects

3

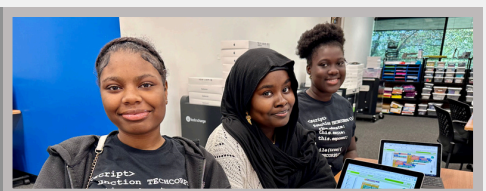

## CAREER TALKS

Broaden students' career focus with insights into your tech role or discuss available career paths in innovation

4

## TECHCORPShack

Spend a Saturday in November volunteering with our largest student event.
