

# Tech Support

TECH CORPS is excited to offer educator training to bring this innovative, recognized pre-apprenticeship program to your district. Tech Support is designed to equip high school students with an Industry-Recognized Credential, Pre-Apprenticeship certification, Work-Based Learning Hours, and the OhioMeansJobs-Readiness Seal.

**TECH CORPS has funding to support Student TECH CORPS: Tech Support in districts designated as rural or small town for the 2025-2026 and/or 2026-2027 school year.**

## Program Details:

Grounded in best practices in Career-Connected Learning, Tech Support prepares students with both technical and durable skills aligned to in-demand careers.

Student TECH CORPS: Tech Support is a comprehensive, research-informed approach that includes:

- An industry-informed curriculum
- Hands-on skill development
- Career exploration
- Professional mentorship
- Opportunity to take the CompTIA Tech+ exam (formerly CompTIA IT Fundamentals+), an approved 6-point industry-recognized credential

### Program Length

Implemented as a year-long or semester course

### Work-Based Learning

Opportunity to earn Work-Based Learning hours and the OhioMeansJobs-Readiness Seal

### Pre-Apprenticeship

Tech Support is an Ohio-recognized Pre-Apprenticeship program

## District Requirements

- ✓ Participating educator attends training sessions (two full days of PD with two after-school follow-up sessions)
- ✓ Implement curriculum during school year with at least five students
- ✓ Partner with TECH CORPS to submit data and outcome measurements

## Benefits to District

- ✓ Stipend and graduate credit provided for participating educator
- ✓ Curriculum, materials and exam vouchers for Industry-Recognized Credential
- ✓ Connects students to workforce experiences
- ✓ Ongoing support during implementation including tracking and reporting student achievements in Work-Based Learning hours and OhioMeansJobs skills to help students meet graduation requirements
